Dimple Fields Permanent Orienteering Course

What you need:

- Map
- Pen or pencil to fill in answer sheets
- Suitable footwear and clothing for walking or running in the park.

What to do:

 The aim is to navigate around the course finding the control points which are shown on the map by red circles. Visit the control points in the order listed for the course you choose.

 The red triangle shows the start/finish point.

 At each control point you are looking for a red and white control marker with a number and a letter. The number corresponds with the number on your map. Write the letter in the box on the answer sheet. The control point description tells you what feature on the map you will find in the centre of the circle.

Missing Control Markers:

If you arrive at a control point with no control marker there are two possibilities:

- You are in the wrong place.
- The post is missing or overgrown.

First check your navigation/map reading. If you still believe the marker is missing then please email feedback@derwentvalleyorienteers.org.uk

Top Tips

Study the map before you start ~ note the scale and the colour scheme.

Find the red triangle on the map ~ this is the starting point at the control post on the path bend near the Megdale entrance.

Orientate your map ~ hold it so that the features which are in front of you on the ground are in front of you on the map.

Fold and Thumb your map ~ fold your map so that you can use your thumb to mark where you are on the map, move your thumb at every check point.
